### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the Registrars of Voters Employees' Retirement System (System), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Registrars of Voters Employees' Retirement System's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Registrars of Voters Employees' Retirement System, as of June 30, 2023 and 2022 and the respective changes in financial position for the years ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Registrars of Voters Employees' Retirement System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Registrars of Voters Employees' Retirement System's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Registrars of Voters Employees' Retirement System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Registrars of Voters Employees' Retirement System's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Emphasis of Matter***

As disclosed in Note 4 to the financial statements, the total pension liability for the Registrars of Voters Employees' Retirement System was \$143,162,922 and \$139,836,162 as of June 30, 2023 and 2022, respectively. The actuarial valuations were based on various assumptions made by the System's actuary. Because actual experience may differ from the assumptions used in the actuarial valuation, there is a risk that the total pension liability at June 30, 2023 and 2022 could be under or overstated.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Registrars of Voters Employees' Retirement System's basic financial statements. The other supplementary information as listed in the table of contents is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2023, on our consideration of the Registrars of Voters Employees' Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Registrars of Voters Employees' Retirement System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Registrars of Voters Employees' Retirement System's internal control over financial reporting and compliance.

OVERVIEW OF THE FINANCIAL STATEMENTS: (Continued)

» Notes to the financial statements.

This report also contains required supplemental information in addition to the basic financial statements themselves.

The statement of fiduciary net position reports the System's assets, liabilities, and net position restricted for pension benefits. It discloses the financial position of the System as of June 30, 2023 and 2022.

The statement of changes in fiduciary net position reports the results of the System's operations during the year disclosing the additions to and deductions from the fiduciary net position. It supports the change that has occurred to the prior year's net position on the statement of fiduciary net position.

FINANCIAL ANALYSIS OF THE SYSTEM

Registrars of Voters Employees' Retirement System provides benefits for registrars of voters, their deputies and their permanent employees in each parish of the State of Louisiana. Member contributions, employer contributions, and earnings on investments fund these benefits.

REGISTRARS OF VOTERS EMPLOYEES' RETIREMENT SYSTEM  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023 AND 2022

The Registrars of Voters Employees' Retirement System (System) was established as of January 1, 1955 by Act 215 of 1954, under R.S. Title 11:2032, as amended, for the purpose of providing retirement allowances and other benefits for registrars of voters, their deputies and their permanent employees in each parish of the State of Louisiana. The fund is administered by a board of trustees. Benefits, including normal retirement, early retirement, disability retirements and death benefits, are provided as specified in the plan.

The System is governed by a Board of Trustees composed of six active and contributing members who have at least ten years of creditable service, a member of the House Committee on Retirement appointed by the speaker of the House of Representatives, the chairman of the Senate Committee on Retirement, the Secretary of State, and the State Treasurer, all of whom are voting members. The term of office of the six elected board members is four years, and no elected trustee may serve for more than two consecutive four-year terms.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Registrars of Voters Employees' Retirement System prepares its financial statements in accordance with the standards established by the Governmental Accounting Standards Board (GASB).

Basis of Accounting:

The Registrars of Voters Employees' Retirement System's financial statements are prepared using the accrual basis of accounting. Employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Interest income is recognized when earned. Ad valorem taxes and revenue sharing monies are recognized in the year appropriated by the legislature.

The System reports under the provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans*. GASB Statement No. 67 established standards of financial reporting for defined benefit pension plans. Significant changes included specifying the approach of contributing entities to measure pension liabilities for benefits provided through the pension plan, increased the note disclosure requirements, and provided for additional required supplementary information schedules.

Method Used to Value Investments:

As required by GASB Statement No. 72, *Fair Value Measurement and Application*, the System's investments are reported at fair value. This statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. Valuation techniques used to measure fair value maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Method Used to Value Investments: (Continued)

This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value based on three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, whether directly or indirectly. Lastly, Level 3 inputs are unobservable inputs, such as management's assumptions or investment manager assumptions that are unobservable. This statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques used. These disclosures are organized by type of asset or liability. GASB Statement No. 72 also requires additional disclosures regarding investments in certain entities that calculate net asset value per share (or its equivalent).

Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The fair value of mutual funds and exchange-traded funds not traded on a national or international exchange are calculated using the net asset value reported by the exchange trade funds and mutual funds. The fair value of investments in limited partnerships and limited liability companies that have no readily ascertainable fair value (such as alternative investments and real estate funds) were calculated as the System's percentage of ownership of the partner's capital reported by the limited partnership or limited liability company.

Capital Assets:

Capital assets of the System are capitalized and depreciated over the estimated future life of the asset. All capital assets are valued on the basis of historical cost and depreciated using the straight-line method of depreciation over its estimated useful life.

Memorandum Only Column:

The total columns on the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position are captioned memorandum only to indicate that they are presented to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Inter-fund eliminations have not been made in the aggregation of this data.

2. PLAN DESCRIPTION:

The Registrars of Voters Employees' Retirement System is the administrator of a cost-sharing multiple-employer plan (Retirement System Trust Fund) and a savings plan (Members' Supplemental Savings Trust Fund). The System was established on January 1, 1955 for the purpose

of providing retirement allowances and other benefits as stated under the provisions of R.S. Title 11:2032, as amended, for registrars of voters, their deputies, and their permanent employees in each parish. The total number of participating employers was 64 for the years ended June 30, 2023 and 2022.

As of June 30, 2023 and 2022, statewide retirement membership consisted of the following:

	<u>2023</u>	<u>2022</u>
Inactive plan members or beneficiaries receiving benefits	190	185
Inactive plan members entitled to but not yet receiving benefits	53	44
Active plan members	<u>231</u>	<u>242</u>
Total number of members	<u>474</u>	<u>471</u>

Retirement System Trust Fund:

Any member hired prior to January 1, 2013 is eligible for normal retirement after he has 20 years of creditable service and is age 55 or has 10 years of creditable service and is age 60. Any member with 30 years of creditable service regardless of age may retire. Regular retirement benefits for members hired prior to January 1, 2013 are calculated at 3.33% of the average annual earned compensation for the highest consecutive 60 months multiplied by the number of years of creditable service, not to exceed 100% of average annual compensation.

Any member hired on or after January 1, 2013 is eligible for normal retirement after he has attained 30 years of creditable service and is age 55; has attained 20 years of creditable service and is age 60; or has attained 10 years of creditable service and is age 62. Regular retirement benefits for members hired on or after January 1, 2013 are calculated at 3.00% of the average annual earned compensation for the highest consecutive 60 months multiplied by the number of years of creditable service, not to exceed 100% of average annual compensation.

Any member whose withdrawal from service occurs prior to attaining the age of 60 years, who shall have completed 10 or more years of creditable service and shall not have received a refund of his accumulated contributions, shall become eligible for a deferred allowance beginning upon his attaining the age of 60 years.

Disability benefits are awarded to active contributing members with at least 10 years of service established in the System and who have been officially certified as disabled by the State Medical Disability Board. The disabled member who has attained the age of 60 years shall be entitled to a regular retirement allowance. The disabled member who has not yet attained age 60 shall be entitled to a disability benefit equal to the lesser of 3% of his average final compensation multiplied by the number of creditable years of service (not to be less than 15 years) or  $3\frac{1}{3}\%$  of average final compensation multiplied by the years of service assuming continued service to age 60. Disability benefits may not exceed two-thirds of earnable compensation.

2. PLAN DESCRIPTION: (Continued)

Retirement System Trust Fund: (Continued)

If a member who has less than five years of credited service dies due to any cause other than injuries sustained in the performance of his official duties, his accumulated contributions are paid to his designated beneficiary. If the member has five or more years of credited service, and is not eligible to retire, automatic Option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with Option 2 factors used as if the member had continued in service to earliest normal retirement age. If a member has no surviving spouse and the member has five or more years of creditable service, the surviving minor children under 18 or disabled children shall be paid 80% of the accrued retirement benefit in equal shares until the age of majority or for the duration of the handicap for a handicapped child. Upon the death of any former member with 10 or more years of service, automatic Option 2 benefits are payable to the surviving spouse. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

In lieu of terminating employment and accepting a service retirement allowance, any member with 10 or more years of service at age 60, 20 or more years of service at age 55, or 30 or more years of service at any age may elect to participate in the Deferred Retirement Option Plan (DROP) for up to three years and defer the receipt of benefits. Upon commencement of participation in the plan, membership in the System terminates. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would have been payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP fund. This fund does not earn interest. In addition, no cost of living increases are payable to participants until employment which made them eligible to become members of the System has been terminated for at least one full year.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the plan may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or any other method of payment if approved by the Board of Trustees. The monthly benefits that were being paid into the Deferred Retirement Option Plan fund will begin to be paid to the retiree. If the participant dies during the participation in the plan, a lump sum equal to his account balance in the plan fund shall be paid to his named beneficiary or, if none, to his estate. If employment is not terminated at the end of the three years, payments into the plan fund cease and the person resumes active contributing membership in the System.

The Retirement System Trust Fund is financed by employee contributions of 7% of earnable compensation. In addition, each sheriff and ex-officio tax collector remits the employer's share of the actuarially required contribution to fund the System up to a maximum of one-sixteenth of 1% of the aggregate amount of the tax shown to be collected by the tax roll of each respective parish. Should employee contributions and tax monies be insufficient to fund the System as required by R.S. 11:22 employers contribute the additional amount.

2. PLAN DESCRIPTION: (Continued)

Retirement System Trust Fund: (Continued)

Cost of living provisions for the System allow the board of trustees to provide an annual cost of living increase of 2% of the eligible retiree's original benefit for retirees and beneficiaries over age 65 and allows a 3% COLA to those retired at least two years, if certain funding criteria are met. Members are eligible to receive a cost of living adjustment once they have reached the age of 60 as follows:

- Funding Criteria 1 - if the funded ratio is equal to or in excess of 90%, the System is eligible to grant a cost of living adjustment every other year.
- Funding Criteria 2 - if the funded ratio is equal to or in excess of 80%, the System is eligible to grant a cost of living adjustment every three years.
- Funding Criteria 3 - if the funded ratio is equal to or in excess of 70%, the System is eligible to grant a cost of living adjustment every four years.

If the funded ratio is less than 70%, the System is not eligible to grant a cost of living adjustment in any year.

Members' Supplemental Savings Trust Fund:

The Members' Supplemental Savings Trust Fund (Fund) was established by LRS 11:2139 as a defined contribution plan. All registrars of voters, their deputies and active permanent employees participate in the plan. As of June 30, 2023 and 2022, the number of participants in the plan was 41 and 53, respectively.

In accordance with state statute, funds contributed to the System in excess of those required contributions to the Retirement Fund employer reserve, as established by the Public Retirement Systems' Actuarial Committee, are deposited in the Members' Supplemental Savings Fund. The amount of funds deposited with the Members' Supplemental Savings Fund is three percent of the salaries paid during the preceding fiscal year to members who were still employed by the employer at the end of the fiscal year unless the Public Retirement Systems' Actuarial Committee recommends a lesser percentage based on available funds and the requirements of the Defined Benefit Plan. As of June 30, 2023 and 2022, there were 64 active employers participating in the Fund. There were no contributions to the Member's Supplemental Savings Fund for the years ending June 30, 2023 and 2022.

Should any member of the System terminate membership in the System due to resignation, retirement, disability, death, or for any other reason involving termination of employment, he shall be entitled to payment of all contributions and interest or other earnings or losses credited to his account as of the date of payment, provided he remains out of service until such time as the payments are required to be paid. Payment to the member is made at the end of the calendar quarter following the quarter in which the member terminates.

2. PLAN DESCRIPTION: (Continued)

Members' Supplemental Savings Trust Fund: (Continued)

Interest, dividends, and realized gains or losses shall be allocated at least once each year on the valuation date or dates of the fund. Such earnings or losses shall be allocated to members in proportion to their account balances as of the first day of the period for which the earnings are credited, reduced by any distribution from such account during the valuation period.

3. CONTRIBUTIONS AND RESERVES:

Contributions:

Contributions for all members are established by state statute at not less than 7% and not more than 9% of earnable compensation, as determined by the Board in consultation with the System's actuary. The member contribution rate for June 30, 2023 and 2022 was 7%. The contributions are deducted from the member's salary and remitted by the participating registrar. Member contribution revenue for the years ended June 30, 2023 and 2022 was \$962,668 and \$917,826, respectively.

According to state statute, contribution requirements for all employers are actuarially determined each year. The actual employer contribution rate was 18% for each of the years ended June 30, 2023 and 2022. Employer contribution revenue for the years ended June 30, 2023 and 2022 were \$2,661,795 and \$2,603,329, respectively.

In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities. Ad valorem tax and state revenue sharing funds received for the years ended June 30, 2023 and 2022 were \$3,525,591 and \$3,205,642, respectively.

Administrative costs of the System are financed through ad valorem taxes and state revenue sharing monies.

Reserves:

Use of the term "reserve" by the System indicates that a portion of the fund balance is legally restricted for a specific future use. The nature and purpose of the reserves are explained below:

A) Deferred Retirement Option Plan:

The Deferred Retirement Option Account consists of the reserves for all members who upon eligibility elect to deposit into this account an amount equal to the member's monthly benefit if he had retired. A member can only participate in the program for three years, and upon termination may receive his benefits in a lump sum payment or by a true annuity. The Deferred Retirement Option Account balance as of June 30, 2023 and 2022 was \$2,649,211 and \$3,052,551, respectively.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2023 AND 2022

3. CONTRIBUTIONS AND RESERVES: (Continued)

Reserves: (Continued)

B) Annuity Savings:

The Annuity Savings is credited with contributions made by members of the System. When a member terminates his service or upon his death, before qualifying for a benefit, the refund of his contributions is made from this fund. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings to the Annuity Reserve. When a member retires, the amount of his accumulated contributions is transferred to the Annuity Reserve to provide part of the benefits payable from that fund. The Annuity Savings balance as of June 30, 2023 and 2022 was \$7,824,646 and \$7,398,181, respectively.

C) Pension Accumulation:

The Pension Accumulation consists of contributions paid by employers, interest earned on investments and any other income not covered by other accounts. This fund is charged annually with an amount, determined by the actuary, to be transferred to the Annuity Reserve to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by other accounts. The Pension Accumulation balance as of June 30, 2023 and 2022 was \$28,216,439 and \$24,157,419, respectively.

D) Annuity Reserve:

The Annuity Reserve consists of the reserves for all pensions, excluding cost-of-living increases, granted to members and is the fund from which such pensions and annuities are paid. Survivors of deceased beneficiaries also receive benefits from this fund. The Annuity Reserve balance as of June 30, 2023 and 2022 was \$79,331,442 and \$76,330,784, respectively.

E) Funding Deposit Account:

The Funding Deposit Account consists of excess contribution collected by the System. The excess funds earn interest at the board approved actuarial valuation rate and are credited to the fund at least once a year. These funds are due to the System freezing the employer rate at a higher rate than actuarially required. The excess funds can be used for the following purposes: (1) reduce the unfunded accrued liability, (2) reduce the present value of future normal costs, (3) pay all or a portion of any future net direct employer contributions, and/or (4) pay a cost of living adjustment. The Funding Deposit Account as of June 30, 2023 and 2022 was \$6,136,561 and \$4,376,954, respectively.

3. CONTRIBUTIONS AND RESERVES: (Continued)

Reserves: (Continued)

F) Members' Supplemental Savings:

The Members' Supplemental Savings consists of contributions from the dedicated taxes to the System in excess of those required contributions to the Pension Accumulation, not to exceed three percent of the salaries paid during the fiscal year proceeding the year in which funds are received. Upon termination a member is entitled to payment of all contributions and earnings credited to his account in the fund. The Members' Supplemental Savings balance as of June 30, 2023 and 2022 was \$329,025 and \$357,140, respectively.

4. NET PENSION LIABILITY OF EMPLOYERS:

The components of the liability of the System's employers to plan members for benefits provided through the pension plan was as follows as of June 30, 2023 and 2022:

	Total Pension	Plan Fiduciary	Employers' Net	Plan Fiduciary Net Position as a Percentage of Total
<u>Year</u>	<u>Liability</u>	<u>Net Position</u>	<u>Pension Liability</u>	<u>Pension Liability</u>
2023	\$ 143,162,922	\$ 124,158,299	\$ 19,004,623	86.73%
2022	139,836,162	115,315,889	24,520,273	82.46%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts regarding the net pension liability are subject to continual revision as actual results are compared to past expectations, and new estimates are made about the future.

The actuarial assumptions used in the June 30, 2023 and 2022 valuation were based on the results of an experience study for the period from July 1, 2014 and June 30, 2019. The required Schedule of Employers' Net Pension Liability located in the required supplementary information following the *Notes to the Financial Statements* presents multi-year trend information regarding whether the plan fiduciary net position is increasing or decreasing over time relative to the total pension liability. The total pension liability as of June 30, 2023 and 2022 is based on actuarial valuation for the same period, updated using generally accepted actuarial procedures.

Information on the actuarial methods and assumptions used as of the June 30, 2023 and 2022 actuarial valuation is as follows:

Salary Increases	5.25% and 5.25% for June 30, 2023 and 2022, respectively.
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board.

For the years ended June 30, 2023 and 2022 mortality assumptions were set after reviewing an experience study performed on plan data for the period from July 1, 2014 through June 30, 2019. The data was assigned credibility weightings and combined with a standard table to produce current levels of mortality.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The resulting long-term rate of return was 8.75% and 8.75% for the years ended June 30, 2023 and 2022, respectively.

4. NET PENSION LIABILITY OF EMPLOYERS: (Continued)

The discount rate used to measure the total pension liability was 6.25% and 6.25% as of June 30, 2023 and 2022, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In accordance with GASB 67, regarding the disclosure of the sensitivity of the net pension liability to changes in the discount rate, the following presents the net pension liability of the participating employers calculated using the discount rate, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate as of June 30, 2023 and 2022:

		<u>Change in Discount Rate</u>		
		1%	Current	1%
		<u>Decrease</u>	<u>Discount</u>	<u>Increase</u>
			<u>Rate</u>	
Net Pension Liability - 2023	\$	34,575,758	\$19,004,623	\$ 5,770,907

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

5. INVESTMENTS AT FAIR VALUE: (Continued)

Derivative instruments classified in Level 2 of the fair value hierarchy are valued using a market approach that considers benchmark interest rates and foreign exchange rates. Investments classified in Level 3 of the fair value hierarchy are valued using unobservable inputs and are not directly corroborated with market data.

The unfunded commitments and redemption terms for investments measured at the net asset value (NAV) per share or its equivalent as of June 30, 2023 and 2022 is presented in the following tables:

	Net Asset Value	Unfunded	Redemption	Redemption

Multi-Asset Strategies:

The Multi-asset strategy fund represents interest in private investment companies that do not trade in an active market and represent investments that may require a lock-up or future capital contributions based on existing commitments. The fair value of the investments in these funds has been determined using the NAV as reported by the investment company. The remaining balance will be redeemed upon liquidation of the underlying assets of the Limited Partnership.

5. INVESTMENTS AT FAIR VALUE: (Continued)

Real Estate:

This investment type includes investments in real estate domiciled in the United States. These investments aim to benefit from higher economic growth and lower debt levels in the United States. The fair value of the investments in these funds has been determined using the NAV per share or equivalent of the investments. Units are valued quarterly and redemption requests received at least 10 business days prior to the end of a given calendar quarter are effective at the end of such calendar quarter. Any amount redeemed will be paid as soon as reasonably practical after the effective date.

Private Equity:

Private equity is an asset class consisting of equity securities and debt in operating companies that are not publicly traded on a stock exchange. Private equity funds employ a combination of strategies to earn superior risk-adjusted returns. The fair values of the investments in this asset class have been determined using the NAV per share or equivalent of the private equity capital. Distributions from each fund will be received as the underlying investments of the funds are liquidated.

Deposits:

The System's bank deposits were insured by Federal Depository Insurance.

Cash Equivalents:

Cash equivalents consisted of holdings in money market funds. The funds are classified as investments in the Statement of Fiduciary Net Position. The System reported a cash equivalent money market mutual fund in the amount of \$2,306,673 and \$1,917,441 as of June 30, 2023 and 2022, respectively. The money market mutual fund was rated AAA as of June 30, 2023 and 2022.

Investments:

Statutes authorize the System to invest under the Prudent-Man Rule. The Prudent-Man Rule shall require each fiduciary of a retirement system and each board of trustees acting collectively on behalf of the System to act with care, skill, prudence, and diligence under the circumstances prevailing that a prudent institutional investor acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Notwithstanding the Prudent-Man Rule, the System shall not invest more than 55% of the total portfolio in equities, except that the System may invest up to 65% of the total portfolio in equities if at least ten percent of the total equity allocation is invested in one or more index funds which seek to replicate the performance of the chosen index or indices.

Concentration of Credit Risk:

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of the System's investment in a single issuer.

The System's investment policy states that no manager will be allocated more than 15% of the System's assets. No single stock position or corporate debt instrument should represent more than 5% of the Plan's net assets. In addition, exposure to any single industry shall not exceed two times its weighting in the market or 20%, whichever is greater. As of June 30, 2023 and 2022 the System was in compliance with these policies.

6. DEPOSITS, CASH EQUIVALENTS, AND INVESTMENTS: (Continued)

Interest Rate Risk: (Continued)

The System invests in mortgage-backed securities. These securities are based on cash flows from interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. The System has no formal policy regarding interest rate risk.

Foreign Currency Risk:

Foreign currency risk is defined as the risk that changes in exchange rates will adversely affect the fair value of an investment. The System's investment policy has a target not to exceed 25% of total investments in foreign marketable securities and a target not to exceed 25% of total investments in fixed income. The System's exposure for foreign currency risk consisted of its investment in foreign marketable securities as of June 30, 2023 and 2022:

Money-Weighted Rate of Return:

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense for the years ended June 30, 2023 and 2022 was 9.54% and (13.14)%, respectively. The money-weighted return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

7. CAPITAL ASSETS:

The change in capital assets consisted of the following for the years ended June 30, 2023 and 2022:

	<u>2023</u>	<u>2022</u>

Depreciation expense was \$5,870 and \$5,603 for each of the years ended June 30, 2023 and 2022, respectively.

8. USE OF ESTIMATES:

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

9. TAX QUALIFICATION:

Beginning January 1, 2005, the Retirement System Trust Fund became a qualified plan under IRS Code Section 401(a).

10. RECLASSIFICATIONS:

Certain amounts in 2022 have been reclassified to conform to 2023 presentation. There were no changes to net assets as of June 30, 2022.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
JUNE 30, 2023 AND 2022

1. SCHEDULE OF CHANGES IN NET PENSION LIABILITY:

The total pension liability contained in this schedule was provided by the System's actuary, Curran Actuarial Consulting, Ltd. The net pension liability is measured as the total pension liability less the amount of the fiduciary net position of the System.

2. SCHEDULE OF EMPLOYERS' NET PENSION LIABILITY:

The schedule of employers' net pension liability shows the percentage of the System's employers' net pension liability as a percentage of covered payroll. The employers' net pension liability is the liability of contributing employers to members for benefits provided through the System. Covered payroll is the payroll on which contributions to the System are based.

3. SCHEDULE OF CONTRIBUTIONS – EMPLOYER AND NON-EMPLOYER CONTRIBUTING ENTITIES:

The difference between the actuarially determined contributions from employer and non-employer contributing entities and the contributions reported from employers and non-employer contributing entities, and the percentage of employer contributions received to covered payroll is presented in this schedule. Ad valorem and state revenue sharing is considered support from non-employer contributing entities.

4. SCHEDULE OF INVESTMENT RETURNS:

The annual money-weighted rate of return is shown in this schedule. The money-weighted rate of return is calculated as the internal rate of return on pension plan investments, net of pension plan investment expense. This expresses investment performance adjusted for the changing amounts actually invested throughout the year, measured using monthly inputs with expenses measured on an accrual basis.

5. ACTUARIAL ASSUMPTIONS:

The information presented in the required supplementary schedules was used in the actuarial valuation for purposes of determining the actuarially determined contribution rate. The assumptions and methods used for the actuarial valuation were recommended by the actuary and adopted by the Board. Additional information on the assumptions and methods used as of the latest actuarial valuation are noted in Note 4, Net Pension Liability of Employers.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

December 1, 2023

Registrars of Voters Employees'  
Retirement System of Louisiana  
P. O. Box 1959  
Gonzales, LA 70707

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Registrars of Voters Employees' Retirement System, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Registrars of Voters Employees' Retirement System's basic financial statements, and have issued our report thereon dated December 1, 2023.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Registrars of Voters Employees' Retirement System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Registrars of Voters Employees' Retirement System's internal control. Accordingly, we do not express an opinion on the effectiveness of the Registrars of Voters Employees' Retirement System's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Registrars of Voters Employees' Retirement System's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Registrars of Voters Employees' Retirement System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
