## INDEPENDENT AUDITOR'S REPORT

December 12, 2011

Board of Trustees  
Registrar of Voters Employees'  
Retirement System of Louisiana  
P. O. Box 57  
Jennings, LA 70546

We have audited the accompanying statements of plan net assets of the Registrar of Voters Employees' Retirement System as of June 30, 2011 and 2010, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Registrar of Voters Employees' Retirement System as of June 30, 2011 and 2010 and the results of operations and changes in net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economical or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

We have audited the financial statements of the System for the years ending June 30, 2011 and 2010 and issued our unqualified opinion on such financial statements. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The required supplemental information on pages 29 through 30 and the supplemental schedules listed on pages 23 through 28 are presented for the purposes of additional analysis and are not a part of the basic financial statements. The required supplemental information for the years ending June 30, 2006 through 2011 and supplemental schedules for the years ending June 30, 2011 and 2010 have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 12, 2011 on our consideration of the Registrar of Voters Employees' Retirement System's internal control over financial reporting and our tests of its compliance with certain provisions of laws and regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

REGISTRAR OF VOTERS EMPLOYEES' RETIREMENT SYSTEM  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2011 AND 2010

The Registrar of Voters Employees' Retirement System (System) was established as of January 1, 1955 by Act 215 of 1954, under R.S. Title 11:2032, as amended, for the purpose of providing retirement allowances and other benefits for registrars of voters, their deputies and their permanent employees in each parish of the State of Louisiana. The fund is administered by a board of trustees. Benefits, including normal retirement, early retirement, disability retirements and death benefits, are provided as specified in the plan.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Registrar of Voters Employees' Retirement System prepares its financial statements in accordance with the standards established by the Governmental Accounting Standards Board (GASB).

Basis of Accounting:

Registrar of Voters Employees' Retirement System's financial statements are prepared using the accrual basis of accounting. Employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Interest income is recognized when earned. Ad valorem taxes and revenue sharing monies are recognized in the year appropriated by the Legislature.

Method Used to Value Investments:

Investments are reported at fair value. Short-term investments are reported at amortized cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments in commingled funds, limited liability companies, and limited partnerships are reported at fair value.

Furniture and Equipment:

Furniture and equipment of the System are accounted for and capitalized in the Pension Fund. Depreciation of fixed assets is recorded as an expense in the Pension Fund. All fixed assets are valued on the basis of historical cost and depreciated using the straight-line method of depreciation over its estimated useful life.

Memorandum Only Column:

The total columns on the Statements of Plan Net Assets and Statements of Changes in Plan Net Assets are captioned memorandum only to indicate that they are presented to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Inter-fund eliminations have not been made in the aggregation of this data.

REGISTRAR OF VOTERS EMPLOYEES' RETIREMENT SYSTEM  
 NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2011 AND 2010

2. PLAN DESCRIPTION:

The Registrar of Voters Employees' Retirement System is the administrator of a cost-sharing multiple-employer plan (Retirement System Trust Fund) and a Savings Plan (Members' Supplemental Savings Trust Fund). The System was established on January 1, 1955 for the purpose of providing retirement allowances and other benefits as stated under the provisions of R.S. Title 11:2032, as amended, for registrars of voters, their deputies and their permanent employees in each parish. The total number of participating employers was 64 for each of the years ended June 30, 2011 and 2010. As of June 30, 2011 and 2010, statewide retirement membership consists of:

	<u>2011</u>	<u>2010</u>
Current retirees and beneficiaries	147	140
Terminated members due a benefit	6	6
Terminated members due a refund	29	20
Fully vested, partially vested, and non-vested active employees covered	227	239
DROP participants	<u>21</u>	<u>8</u>
Total number of members	<u>430</u>	<u>413</u>

Retirement System Trust Fund:

Any member is eligible for normal retirement after he has 20 years of creditable service and is age 55 or has 10 years of creditable service and is age 60. Any member with 30 years of creditable service regardless of age may retire. Regular retirement benefits are 3.33% of the average final compensation multiplied by the number of years of creditable service, not to exceed 100% of average final compensation.

Any member whose withdrawal from service occurs prior to attaining the age of sixty years, who shall have completed ten or more years of creditable service and shall not have received a refund of his accumulated contributions, shall become eligible for a deferred allowance beginning upon his attaining the age of sixty years.

Disability benefits are awarded to active contributing members with at least 10 years of service established in the System and who have been officially certified as disabled by the State Medical Disability Board. The disabled member who has attained the age of sixty years shall be entitled to a regular retirement allowance. The disabled member who has not yet attained age sixty shall be entitled to a disability benefit equal to the lesser of three percent of his average final compensation multiplied by the number of creditable years of service (not to be less than fifteen years) or three and one third percent of average final compensation multiplied by the years of service assuming continued service to age sixty. Disability benefits may not exceed two-thirds of earnable compensation.

2. PLAN DESCRIPTION: (Continued)

If a member who has less than five years of credited service dies due to any cause other than injuries sustained in the performance of his official duties, his accumulated contributions are paid to his designated beneficiary. If the member has five or more years of credited service, and is not eligible to retire, automatic option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with option 2 factors used as if the member had continued in service to earliest normal retirement age. If a member has no surviving spouse and the member has five or more years of creditable service, the surviving minor children under 18 or disabled children shall be paid 80% of the accrued retirement benefit in equal shares until the age of majority or for the duration of the handicap for a handicapped child. Upon the death of any former member with 10 or more years of service, automatic option 2 benefits are payable to the surviving spouse. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

In lieu of terminating employment and accepting a service retirement allowance, any member with ten or more years of service at age sixty, twenty or more years of service at age fifty-five, or thirty or more years of service at any age may elect to participate in the Deferred Retirement Option Plan (DROP) for up to three years and defer the receipt of benefits. Upon commencement of participation in the plan, membership in the System terminates. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would have been payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP fund. This fund does not earn interest. In addition, no cost of living increases are payable to participants until employment which made them eligible to become members of the System has been terminated for at least one full year.

Upon termination of employment prior to or at the end of the specified period of participation, a participant in the plan may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or any other method of payment if approved by the Board of Trustees. The monthly benefits that were being paid into the Deferred Retirement Option Plan fund will begin to be paid to the retiree. If the participant dies during the participation in the plan, a lump sum equal to his account balance in the plan fund shall be paid to his named beneficiary or, if none, to his estate. If employment is not terminated at the end of the three years, payments into the plan fund cease and the person resumes active contributing membership in the System.

The Retirement System Trust Fund is financed by employee contributions of 7% of earnable compensation. In addition, each sheriff and ex-officio tax collector remits the employer's share of the actuarially required contribution to fund the System up to a maximum of one-sixteenth of one percent of the aggregate amount of the tax shown to be collected by the tax roll of each respective parish. Should employee contributions and tax monies be insufficient to fund the System as required by R.S. 11:22 employers contribute the additional amount.

2. PLAN DESCRIPTION: (Continued)

Cost of living provisions for the System are detailed in R.S. 11:2073 and R.S. 11:246. R.S. 11:2073 allows the board of trustees to provide an annual cost of living increase of 3% of the retiree's original benefit from interest earnings on investments in excess of the valuation interest rate. This applies only to members who have been retired for at least two years. Louisiana statutes also allow the board of trustees to grant an additional cost of living increase to all retirees and beneficiaries over age 65 equal to two percent of the benefit paid on October 1, 1977, (or the member's retirement date, if later). This raise may only be granted from investment earnings in excess of the valuation interest rate of eight percent.

In lieu of granting a cost of living increase as described above, Louisiana statutes allow the board to grant a cost of living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost of living amount not to exceed \$1.

In order to grant any cost of living increase, the ratio of the actuarial value of assets to the pension benefit obligation must equal or exceed a statutory target ratio defined in R.S. 11:242.

Members' Supplemental Savings Trust Fund:

The Members' Supplemental Savings Trust Fund (Fund) was established by LRS 11:2139 as a defined contribution plan. All registrars of voters, their deputies and active permanent employees participate in the plan. During the plan years ended June 30, 2011 and 2010 the number of participants in the plan was 159 and 164, respectively.

In accordance with state statute, funds contributed to the System in excess of those required contributions to the Retirement Fund employer reserve, as established by the Public Retirement Systems' Actuarial Committee, are deposited in the Members' Supplemental Savings Fund. The amount of funds deposited with the Members' Supplemental Savings Fund is three percent of the salaries paid during the preceding fiscal year to members who were still employed by the employer at the end of the fiscal year unless the Public Retirement Systems' Actuarial Committee recommends a lesser percentage based on available funds and the requirements of the Defined Benefit Plan. As of June 30, 2011 and 2010, there were 64 active employers participating in the Fund. There were no contributions to the Member's Supplemental Savings Fund for the years ending June 30, 2011 and 2010.

Should any member of the System terminate membership in the System due to resignation, retirement, disability, death, or for any other reason involving termination of employment, he shall be entitled to payment of all contributions and interest or other earnings or losses credited to his account as of the date of payment, provided he remains out of service until such time as the payments are required to be paid. Payment to the member is made at the end of the calendar quarter following the quarter in which the member terminates.

2. PLAN DESCRIPTION: (Continued)

Interest, dividends and realized gains or losses shall be allocated at least once each year on the valuation date or dates of the fund. Such earnings or losses shall be allocated to members in proportion to their account balances as of the first day of the period for which the earnings are credited, reduced by any distribution from such account during the valuation period.

3. CONTRIBUTIONS AND RESERVES:

Contributions:

Contributions for all members are established by state statute at 7.0% of earnable compensation. The contribution is deducted from the member's salary and remitted by the participating registrar.

According to state statute, contribution requirements for all employers are actuarially determined each year. For the years ending June 30, 2011 and 2010, the actual employer contribution rate was 14.25% and 3.50%, respectively. For the years ended June 30, 2011 and 2010, the actuarially determined employer contribution rate was 15.35% and 10.57%, respectively. The actual rate is different from the actuarially required rate due to state statutes that require the contribution rate be calculated and set two years prior to the year effective.

In accordance with state statute the fund receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions.

Administrative costs of the System are financed through ad valorem taxes and state revenue sharing monies.

Reserves:

Use of the term "reserve" by the System indicates that a portion of the fund balance is legally restricted for a specific future use. The nature and purpose of the reserves are explained below:

A) Deferred Retirement Option Plan:

The Deferred Retirement Option Account consists of the reserves for all members who upon eligibility elect to deposit into this account an amount equal to the member's monthly benefit if he had retired. A member can only participate in the program for three years, and upon termination may receive his benefits in a lump sum payment or by a true annuity. The Deferred Retirement Option Account as of June 30, 2011 and 2010 is \$3,004,830 and \$2,326,729 respectively. The Deferred Retirement Option Account is fully funded for the years ended June 30, 2011 and 2010.

NOTES TO FINANCIAL STATEMENTS

3. CONTRIBUTIONS AND RESERVES: (Continued)

B) Annuity Savings:

The Annuity Savings is credited with contributions made by members of the System. When a member terminates his service or upon his death, before qualifying for a benefit, the refund of his contributions is made from this fund. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings to the Annuity Reserve. When a member retires, the amount of his accumulated contributions is transferred to the Annuity Reserve to provide part of the benefits payable from that fund. The Annuity Savings as of June 30, 2011 and 2010 is \$5,856,121 and \$5,992,748, respectively. The Annuity Savings is fully funded for the years ended June 30, 2011 and 2010.

C) Pension Accumulation:

The Pension Accumulation consists of contributions paid by employers, interest earned on investments and any other income not covered by other accounts. This fund is charged annually with an amount, determined by the actuary, to be transferred to the Annuity Reserve to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by other accounts. The Pension Accumulation as of June 30, 2011 and 2010 is \$31,727,506 and \$29,341,426, respectively. The Pension Accumulation is 87.73% and 66.51% funded for the years ended June 30, 2011 and 2010, respectively.

D) Annuity Reserve:

The Annuity Reserve consists of the reserves for all pensions, excluding cost-of-living increases, granted to members and is the fund from which such pensions and annuities are paid. Survivors of deceased beneficiaries also receive benefits from this fund. The Annuity Reserve as of June 30, 2011 and 2010 is \$26,719,188 and \$25,162,492, respectively. The Annuity Reserve is fully funded for the years ended June 30, 2011 and 2010.

E) Members' Supplemental Savings:

The Members' Supplemental Savings consists of contributions from the dedicated taxes to the System in excess of those required contributions to the Pension Accumulation, not to exceed three percent of the salaries paid during the fiscal year preceding the year in which funds are received. Upon termination a member is entitled to payment of all contributions and earnings credited to his account in the fund. The Members' Supplemental Savings as of June 30, 2011 and 2010 is \$1,440,960 and \$1,409,020 respectively. The Members' Supplemental Savings is fully funded for the years ended June 30, 2011 and 2010.

4. ACTUARIAL COST METHOD:

The Aggregate Actuarial Cost Method was used to calculate the funding requirements of the Registrar of Voters Employees' Retirement System for the fiscal years ended June 30, 2011 and 2010. This funding method allocates pension costs as a level percentage of payroll over the future-working lifetime of current members. The Aggregate Actuarial Cost Method produces no unfunded accrued liability. Under the Aggregate Actuarial Cost Method, actuarial gains and losses are spread over future normal costs. Based on actual experience, future normal costs will increase or decrease.

5. REQUIRED SUPPLEMENTARY SCHEDULES:

Information in the required supplemental schedules is designed to provide information about the System's progress made in accumulating sufficient assets to pay benefits and is presented on pages 29 through 30.

6. DEPOSITS, CASH EQUIVALENTS AND INVESTMENTS: (Continued)

Deposits:

The System's bank deposits were entirely covered by Federal depository insurance and pledged collateral held in the name of the System.

Cash Equivalents:

Cash equivalents consist of a money market fund. The funds are held and managed by the System's custodian bank and are held in the name of the System.

Investments:

Statutes authorize the System to invest under the Prudent-Man Rule. The Prudent-Man Rule shall require each fiduciary of a retirement system and each board of trustees acting collectively on behalf of the System to act with care, skill, prudence and diligence under the circumstances prevailing that a prudent institutional investor acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. Notwithstanding the Prudent-Man Rule, the System shall not invest more than fifty-five percent of the total portfolio in equities, except that the System may invest up to sixty-five percent of the total portfolio in equities if at least ten percent of the total equity allocation is invested in one or more index funds which seek to replicate the performance of the chosen index or indices.

Concentration of Credit Risk:

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of the System's investment in a single issuer.

The System's investment policy states that no manager will be allocated more than 15% of the System's assets. No single stock position or corporate debt instrument should represent more than 10% of a manager's portfolio at market. In addition, exposure to any single industry shall not exceed 2 times its weighting in the market or 20%, whichever is greater. The System is in compliance with their concentration of credit risk policy.

As of June 30, 2011, the limited partnership Equitas Evergreen in the amount of \$4,731,006 represented 7.66% of the System's total investments. As of June 30, 2010, the limited partnership Equitas Evergreen in the amount of \$3,843,821 represented 7.27% of the System's total investments.

The System invested in a commingled bond fund. As of June 30, 2011, the market value of this fund is \$2,016,378. The rating in the fund ranges from AA to B and below with a majority of the investments rated BBB+ to BB- with 17% of the investments not rated. As of June 30, 2011 the System also invested in an LLC in the amount of \$1,111,803. The rating of the investments in the LLC ranges from AAA to D with a majority of the investments rated BB to CCC with 36.05% of the investments not rated.

Custodial Credit Risk:

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The System is not exposed to custodial credit risk as of June 30, 2011 and 2010 for investments in the amount of \$61,801,644 and \$52,887,515, respectively, since the investments are held in the name of the System.

The System has no formal policy regarding custodial credit risk.

Interest Rate Risk: (Continued)

The System invests in mortgage backed securities. These securities are based on cash flows from interest payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates.

Foreign Currency Risk:

Foreign currency risk is defined as the risk that changes in exchange rates will adversely affect the fair value of an investment. The System's investment policy has a target not to exceed 25% of total investments in foreign marketable securities and a target not to exceed 25% of total investments in fixed income. The System's exposure for foreign currency risk consisted of its investment in foreign marketable securities as of June 30, 2011 and 2010.

8. USE OF ESTIMATES:

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

9. TAX QUALIFICATION:

Beginning January 1, 2005, the Retirement System Trust Fund became a qualified plan under IRS Code Section 401(a).

10. FUNDED STATUS AND FUNDING PROGRESS – PENSION PLAN:

The actuarial valuation of assets, actuarial accrued liability and unfunded amounts were calculated using the entry age actuarial cost method which is different from the actuarial method used for funding purposes. The schedule below reflects the funded status and funding progress of the System as of June 30, 2011.

Actuarial Value of Assets <u>(a)</u>	Actuarial Accrued Liability (AAL) <u>(b)</u>	Unfunded AAL (UAAL) <u>(b-a)</u>	Funded Ratio <u>(a/b)</u>	Annual Covered Payroll <u>(c)</u>	UAAL as a Percentage of Covered Payroll <u>(b-a/c)</u>

10. FUNDED STATUS AND FUNDING PROGRESS – PENSION PLAN: (Continued)

Additional information on the actuarial methods and assumptions used as of the June 30, 2011 actuarial valuation is as follows:

Valuation Date	June 30, 2011
Actuarial Cost Method	Aggregate Actuarial Cost Method
Asset Valuation Method	Based on the market value adjusted to smooth all investment returns over a five year period with limits set at 85% and 115% of the market value of assets. When adjusted value falls outside of the limits, the actuarial value is set equal to the average of limited and adjusted value.
Actuarial Assumptions:	
Investment Rate of Return	8%
Projected Salary Increases	7.0% (3.25% Inflation, 3.75% Merit)
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the system and includes previously granted cost of living increases. Future cost of living increases are only granted if specific target ratios are met and excess interest earnings are available to fund the cost of the benefit increase.

The required schedule of funding progress on Page 30 presents additional multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

December 12, 2011

Registrar of Voters Employees'  
Retirement System of Louisiana  
P.O. Box 57  
Jennings, LA 70546

We have audited the financial statements of Registrar of Voters Employees' Retirement System as of and for the year ended June 30, 2011, and have issued our report thereon dated December 12, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Registrar of Voters Employees' Retirement System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Registrar of Voters Employees' Retirement System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Registrar of Voters Employees' Retirement System's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Registrar of Voters Employees' Retirement System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Registrar of Voters Employees' Retirement System's Board of Trustees, Office of the Legislative Auditor of the State of Louisiana, and management of the System and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
